

## Daffodil Sales for American Cancer Society

For almost more years than anyone can remember, our Grange has taken an active role to support the American Cancer Society by selling daffodils – *the flower of hope* – each March in Millerstown and Liverpool. An advance mailing is sent to all local church congregations, most of which have named “Daffodil Chairpersons” to promote the benefit. Large orders are sold to local churches to adorn their altars in memory of loved ones and smaller orders are sold to individuals who stop by the sales locations in two local towns.

In 2013 Perry Valley Grange raised **\$1,675** during the sale and forwarded these funds to the local Cancer Society office. The project was coordinated Grange vice president Krista Pontius. Proceeds of the sale are used to fund cancer research, public education and patient services. The American Cancer Society has announced this is the last year for the daffodil fund raiser.

**Cut daffodils, potted daffodils, daffodils in vases and stuffed animals with a bunch of daffodils were among the items available for sale in 2013.**

The various daffodil items are sorted at the Grange Hall, awaiting pick-up.

Give Daffodils. Give Hope.<sup>™</sup>

**Your donations are helping us...**  
make an impact in the fight against cancer in  
communities all over the country and in your backyard.

By funding young researchers with innovative ideas—44 of whom have gone on to win the Nobel Prize—we have played a role in nearly every major breakthrough in **cancer research** today.

Knowledge is power. Through the Society's 24-hour hotline, **1.800.227.2345**, and Web site, **cancer.org**, you can get answers to all of your questions, even the ones you didn't know you had.

When you're fighting cancer, feeling good about yourself can be challenging. **Look Good... Feel Better<sup>®</sup>** teaches women how to enhance their appearance and self-image during treatment.

Cancer patients don't have to go it alone. **Man to Man<sup>®</sup>**, **Reach to Recovery<sup>®</sup>**, and **I Can Cope<sup>®</sup>** pair patients with survivors of the same disease for one-on-one support, and **Road to Recovery<sup>®</sup>** takes patients to and from their medical appointments.

**Advocacy efforts** to change laws have resulted in smoke-free workplaces and beaches and increased access to cancer detection and treatment for everyone.
